YOUR NUMBERS IN FULL

What is being financed, what is owing at the end, and the two things your salary packager administers rather than us.

NLTS

The standard we built, applied to your quote

Novated Lease Transparency Standard — five finance figures, ex GST

7a **Finance payments**	× (after deferral)	
6 **Balloon**	End-of-term residual, ex GST	
Total cost	Finance payments + balloon	
Total amount financed	Amount lent to fund the vehicle	
Total term charges	Total cost − amount financed	

The industry has no standard for showing the real cost of a novated lease, so we wrote one and hold ourselves to it on every quote. The tax savings are real, but they come from government policy, not from us — transparency is the part we control. You see the **true cost of the lease, not just the savings**, and you commit fully informed.
