Total salary deductions	

Note 1 - External Insurance
This quote includes a budgeted amount for external insurance as part of your Monthly Charge. **This means you are responsible for obtaining your own comprehensive motor vehicle insurance from a reputable and solvent insurer**. Each year (including the first year), when you pay for the insurance policy premium, you will need to submit a reimbursement claim (with evidence of payment) to ORIX for that premium or renewal payment and we will reimburse you out of this budgeted amount (in accordance with the Standard Terms). **You must ensure you have comprehensive motor vehicle insurance coverage for the Vehicle from the delivery date.**

Other Fees

5 A Non-Appointed Dealer Fee of (excl GST) applies as a one-off fee for this lease, as you have asked ORIX to acquire a vehicle from a dealership that is outside of ORIX's dealership network or as you have sourced your own quote from a dealership. This fee covers ORIX's administrative costs in processing the quote outside of ORIX's standard processes. This fee is capitalised into the lease rental and paid as part of the Monthly Charge. This means you do not need to pay this fee up front.

Fringe Benefits Tax (FBT)
The FBT (statutory method) information above has been calculated using the current legislated rates.

GST
Unless clearly stated otherwise, all amounts shown in this form are exclusive of GST. For GST exclusive amounts, the Customer must also pay to ORIX the GST for which ORIX becomes liable, in accordance with the relevant provisions of the Standard Terms.
